OIL AND GAS EQUIPMENT

— *Powering the World, Fueling the Future*

Insights, Trends, and
Innovations in the
Global Sector

INTRODUCTION

Supplying Excellence to the Energy Industry

Carter Oil delivers premium-quality oil and gas equipment designed to meet the demanding requirements of drilling, production, and refining operations worldwide. With a strong global supply network and technical expertise, we provide reliable, safety-tested, and performance-driven equipment that keeps operations efficient and compliant. Our goal is to support clients with the highest standards of quality, reliability, and timely delivery because in energy, precision matters.

CARTEROIL®

Shaping the Energy Landscape

Carter Oil provides a comprehensive range of oil and gas field equipment designed to support drilling, production, refining, and maintenance operations. Every component in our catalog meets strict quality and safety standards to ensure reliability in demanding environments. From precision-engineered valves to heavy-duty rig tools, our equipment range is built to deliver performance, durability, and operational efficiency in both onshore and offshore applications.

- Rig Tools & Maintenance Equipment
- Tubing, Piping & Fittings
- Pressure & Safety Components
- Valves & Flow Control Systems

OUR EQUIPMENT RANGE

Carter Oil supplies a full range of precision-engineered valves for critical flow control applications in the oil and gas sector. Built for durability and performance, our valves ensure safe and efficient operation in both onshore and offshore environments.

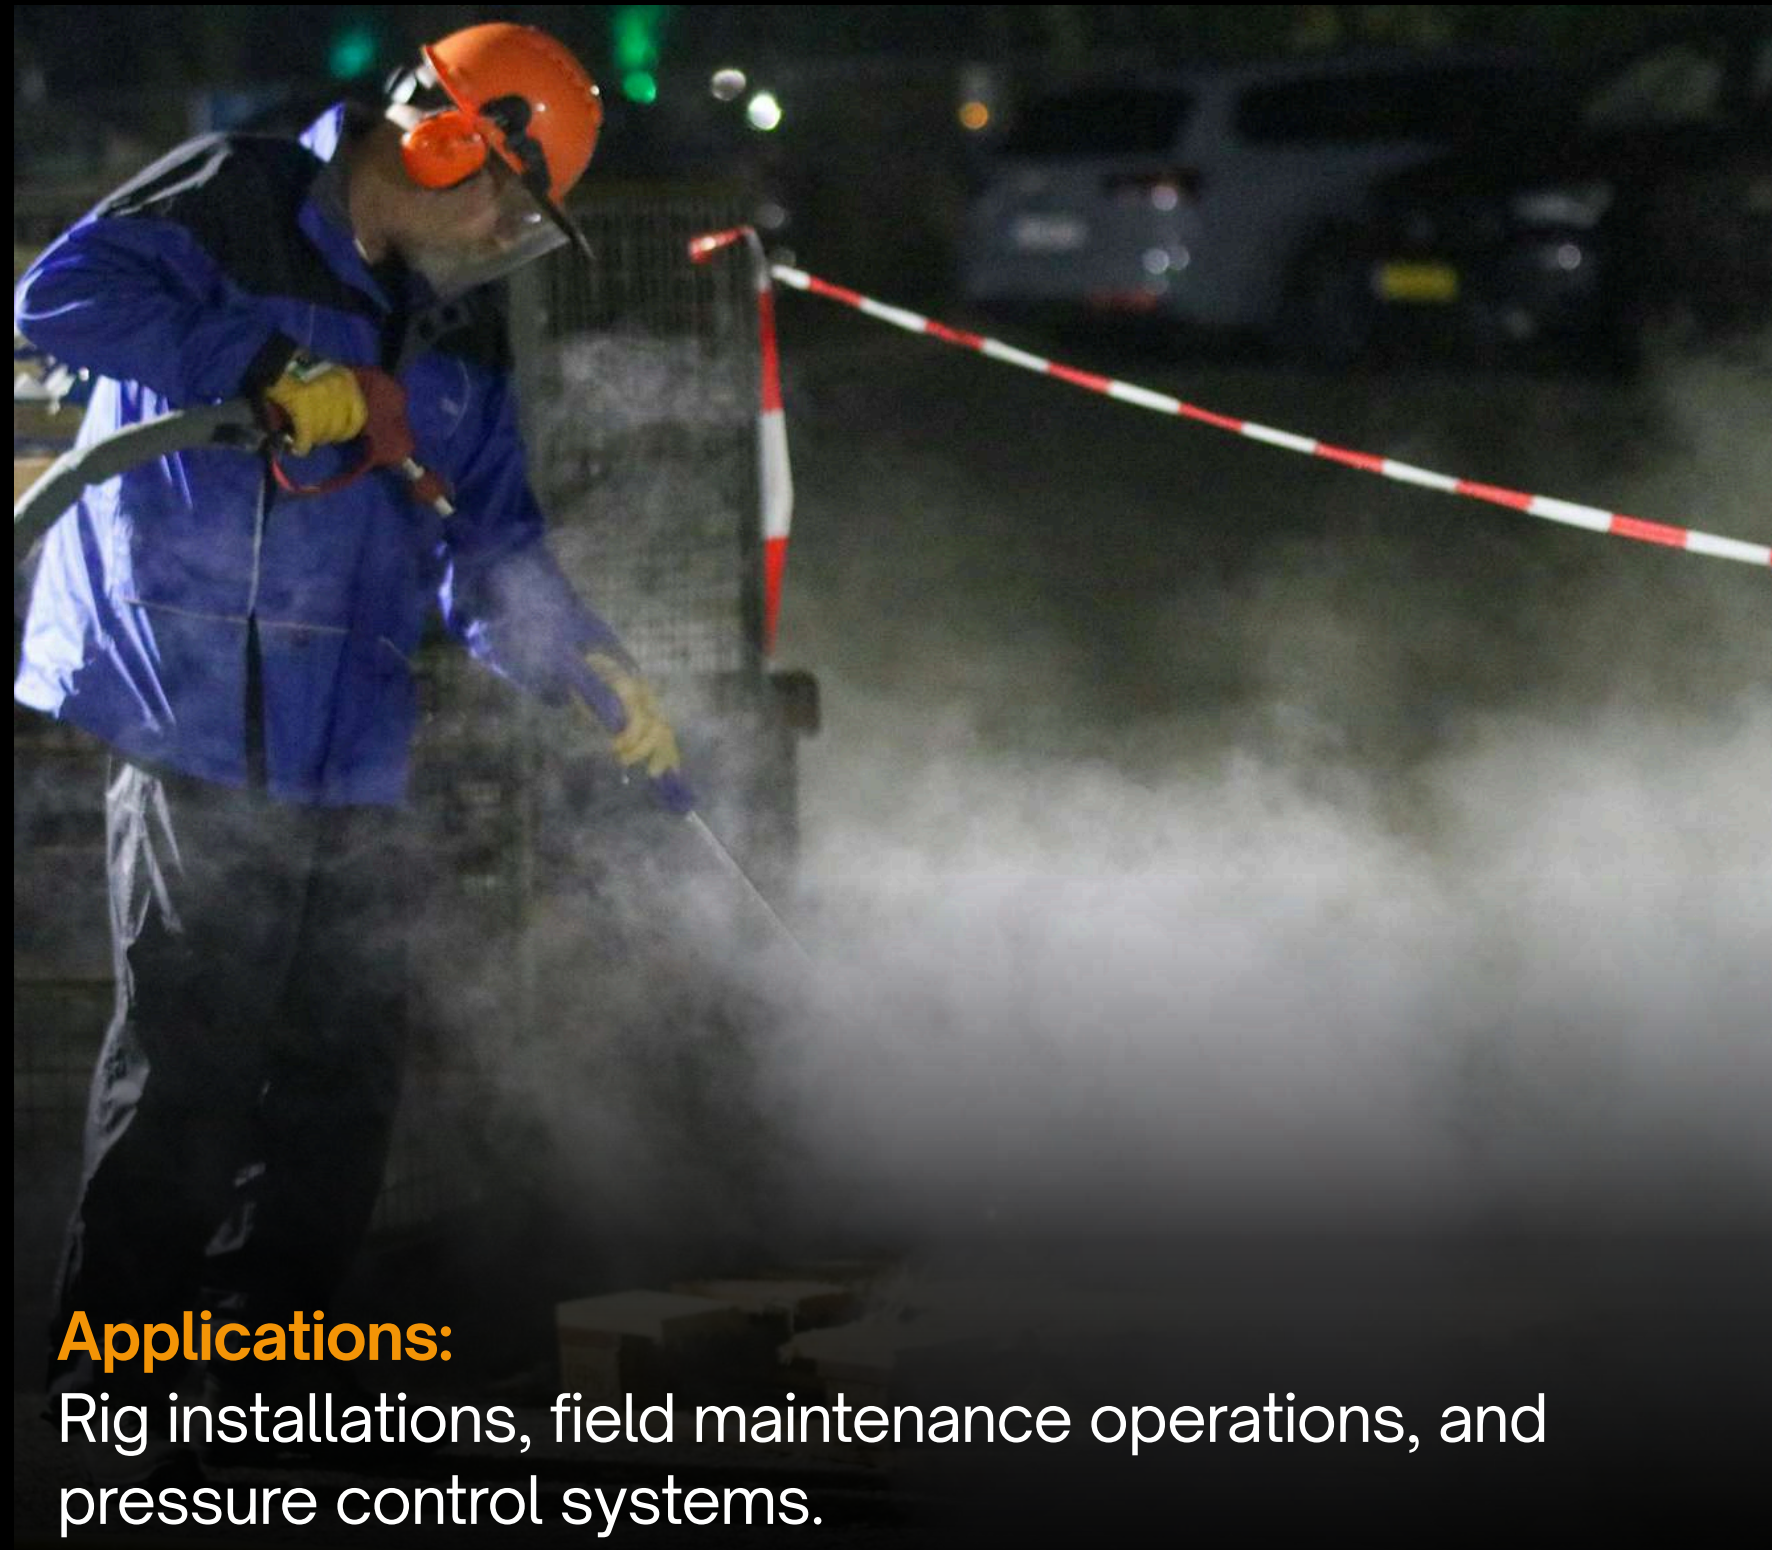

- Check Valves
- Inline Relief Valves
- Right-Angle Relief Valves
- Quick-Vent Valves
- High-Pressure Safety Valves

VALVES & FLOW CONTROL SYSTEMS ➔

Applications:

Drilling systems, production lines, wellheads, and refinery operations.

Applications:

Rig installations, field maintenance operations, and pressure control systems.

Safety and operational integrity are at the core of every project. Carter Oil offers robust, certified safety equipment and monitoring components designed to withstand harsh industrial environments.

- Pressure Indicators and Gauges
- Safety Shoes and Rig Safety Gear
- Pressure Control Fittings and Hoses
- Calibration and Monitoring Accessories

PRESSURE & SAFETY COMPONENTS

TUBING, PIPING & FITTINGS

Our tubing and piping solutions are designed for reliability under high-pressure and corrosive conditions. With superior materials and engineering precision, Carter Oil ensures long-lasting performance across oilfield systems.

- Stainless Steel & Carbon Steel Tubing
- Cone & Thread, Flare, and ORFS Fittings
- Hydraulic and Pneumatic Tubing Assemblies
- Couplings, Connectors, and Adaptors

Applications:

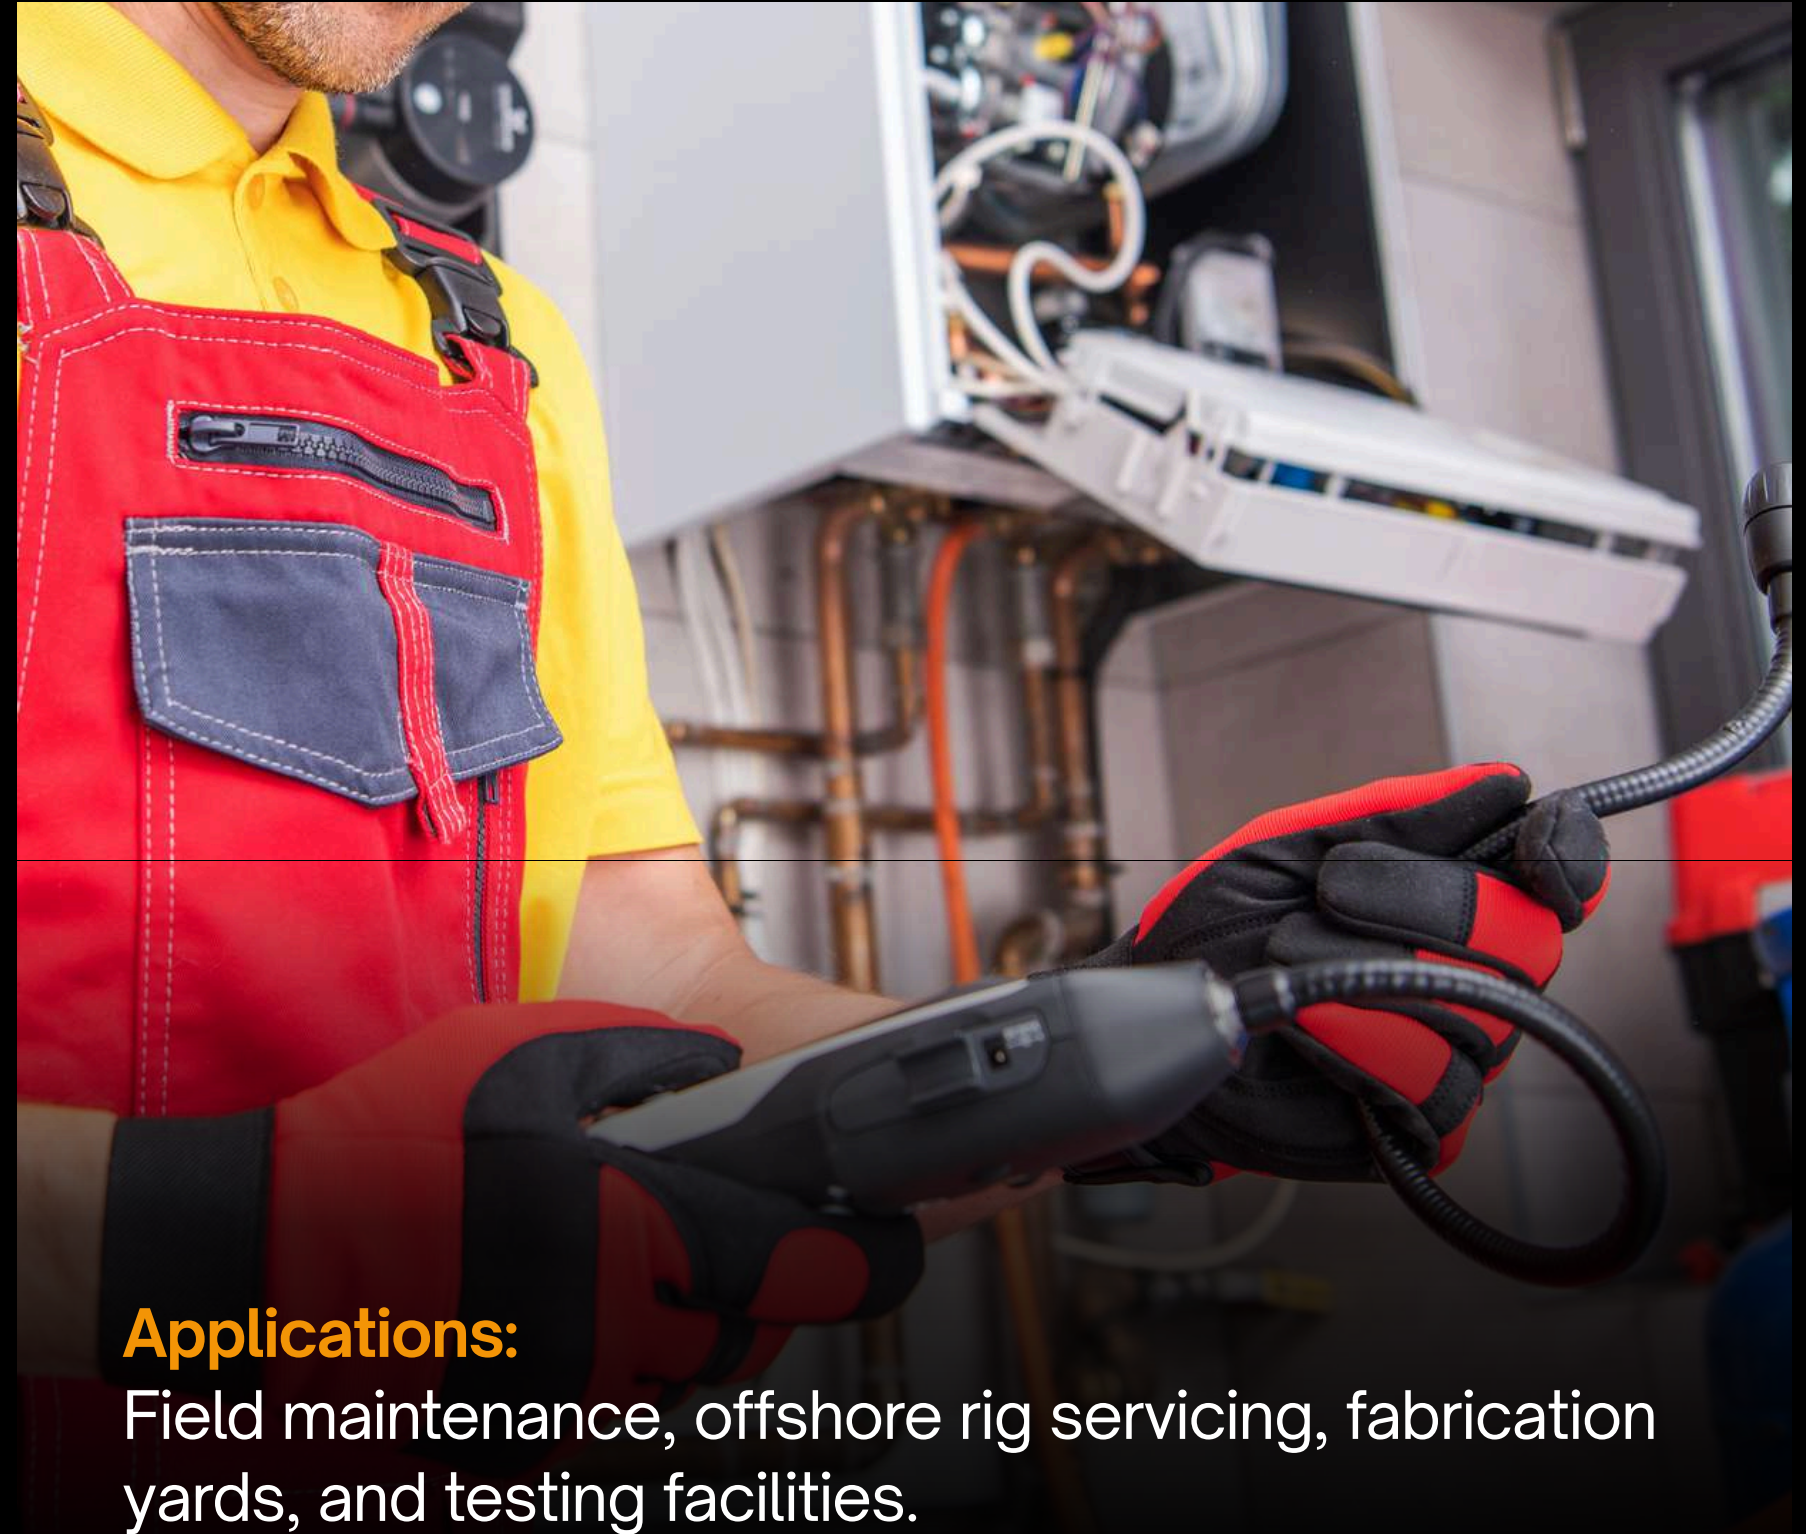

Flowline systems, hydraulic and pneumatic circuits, drilling platforms, and refineries.

Carter Oil supplies a comprehensive range of heavy-duty rig and maintenance tools that keep your operations running efficiently and safely.

- Hydraulic Tube Benders
- HPUs (Hydraulic Power Units)
- Welding Machines & Swaging Tools
- Hydrostatic Test Equipment

RIG TOOLS & MAINTENANCE EQUIPMENT

Applications:

Field maintenance, offshore rig servicing, fabrication yards, and testing facilities.

➔ APPLICATIONS ACROSS SECTORS

- Drilling & Production Rigs
- Refineries & Processing Plants
- Offshore Platforms
- Gas Treatment Facilities
- Pipeline & Field Maintenance Operations

Sustainability & Reliability:

Carter Oil ensures every equipment solution adheres to environmental and safety regulations. Our approach focuses on long-term performance, operational safety, and reduced downtime, helping clients achieve efficiency with responsibility.
